and Friday.

Local & General

T. Treadway of Crossfield has been a visitor in the district.

Mrs. Berger and I. Granlin were week end visitors in Banff. H. Smith was a business visitor in Calgary, Wednesday.

Miss Molly Bastin has secured a position as teacher near Empress.

Mrs. W. Diemert and Eric were week end visitors in Calgary.

Mrs. F. Gottenberg is in Lethbridge this week, where she is undergoing medical treatment.

Mrs. Clara Wilson of Moscow, Idaho, sister of F. Gottenberg, is a guest at the home of Mr. and Mrs. F. Gottenberg.

Mrs. Amelia Sletto of Spokane, is a visitor in the district. Mrs. Sletto is the mother of the Sletto Bros.

Mr. and Mrs. Cecil Gibson of Calgary, are guests at the home of Mr. and Mrs. F. Gottenberg.

Mrs. Vanbesien and family left for Vancouver Saturday, having received word of the serious illness of her daughter at that point.

What was in the bread last week that caused that fall of the safety at the bakery? Contributed.

Mrs. G. M. Campbell was a dinner hostess on Sunday when her guests included Mr. and Mrs. Friesen of Vulcan.

Miss Gertrude Granlin left recently for Banff, where she has secured a position as a beauty operator.

Jim Hoggis of Cranbrook, B.C. right hand man for J. Doyle for several years, is here for harvest with Jack again.

Jim Groves and B. Bie Scott attended the Stampede at Willow Creek Wednesday. The latter competed in the riding.

H. Friesen, who has been the United Grain Growers' agent at Vulcan for the past few years, has been transferred to Didsbury.

Mrs. G. F. Smith has been confined to her bed for the last few days, having had her tonsils removed at the Carmangay hospital.

Swift's Lard, Cooked Meats, Hams and Bacon. Prices right, Quality none better, at Campbell's.

Mr. and Mrs. A. M. Watt, now of Wayne were guests at the home of Mr. and Mrs. Geo. Dupuis on Thursday.

Stores will remain open on Wednesday afternoons through harvest.

Angel Skin Dresses, lovely range of pastel shades, \$1.95 each at Campbell's.

Mr. Bastin spent the past week holidaying with his family in Calgary.

Mr. and Mrs. Clarence Davis returned Tuesday from a holiday spent at Banff and Radium Springs.

Mr. and Mrs. Fred Watts returned Tuesday from a holiday spent at Rimby.

Eric Moffatt, Bobby McCullough and Wilfred Warren left on Sunday for a holiday at Waterton Lakes.

Just arrived, the famous Jean Gordon Dresses. Smart for house or street, \$1.45 each at Campbell's.

Mr. and Mrs. N. Anderson of Nanton, are guests at the home of Mr. and Mrs. J. Anderson.

Harvest Gloves, Watson make, from 35c to \$1.50 at Campbell's.

Field Day

Well Attended

More than sixty farmers, representatives from Champion, Lomond, Kirksaidy, Stavel, Granum, Poulteney Wood: house and Claresholm were guests of the Searle and National Elevator Companies on Monday, at M. G. Glover's farm, when W. D. Hayes, Asst. Superintendent, Lethbridge Experimental Farm, C. Tapp of the Dominion Seed branch, J. R. McRae and R. L. Walters of the Searle Grain Co. Calgary, A. E. Rand and E. J. Munson, National Elevator Co. Calgary were present. The guests were welcomed by W. D. Hayes, who disclosed the object of the gathering, namely, to examine the various plots of grain, which were grown from the samples of seed recruited from several districts in the spring. The speaker then introduced Mr. C. Tapp, who in his address emphasized the benefits obtained from the use of pure seed and stressed the fact that if all farmers in this district grew a good strain of Marquis, which is the best type for this locality, it would entirely eliminate the mixing of grain which is now prevalent. Mr. Tapp and Mr. Hayes then accompanied the farmers to the various plots, where a close examination was made of the growing grain, the variety and quality being ascertained. Those having inferior strains of wheat were urged to consult their local agents in order to get in touch with those with whom they might exchange their grain for a better strain. The knowledge obtained from this visit, besides being very interesting, is undoubtedly beneficial, and much indebtedness is felt to the Searle and National Grain Companies for their effort. The Ladies' Aid served refreshments during the afternoon.

Local & General

The Newest in Silk Blouses for the ladies. Silk Pique and Suede Tulle, \$1.25 and \$1.95 each at Campbell's.

Johnny Harper, brother of Dan Harper of Vulcan met death last Wednesday in an auto accident at Ebersole, California. The late Mr. Harper leaves two children, his wife having predeceased him.

Mr. G. F. Smith wishes to thank the many kind friends for the beautiful flowers sent him, also Fred Wise and G. M. Campbell for the delicious offerings of trout.

An afternoon tea, claiming the ladies of the O.O.R.P. was held Wednesday at the home of Mrs. T. Sletto. Over fifty ladies were present and very delicious refreshments were served.

Mr. and Mrs. H. T. Lomont and Mrs. Dubbe Sr. of Vulcan returned recently from a trip covering some 4700 miles. They found the weather extremely warm in the states. Mr. Lomont stated that the week spent in Banff was most enjoyable of all.

The annual picnic of the Cloverville Pioneer Club held Wednesday at the Orville Smith ranch was a decided success. There was a large crowd in attendance. Due to the extreme weather swimming was the favorite pastime. There were also several softball games played. A barn dance was held in the evening with an old time orchestra in attendance.

The Leader for Over Forty Years

"Fresh from the Gardens"

Conscience And The "Talkies"

Hollywood and the motion picture industry have been occupying even more than their accustomed share of the newspaper spotlight during recent months—and to some effect. There are indications the results of industry and publicity will have a salutary (if not salutary) influence upon the product distributed for the entertainment and education of the theatre-going public.

The tremendous potency of the "Talkies" as agents for popular uplift, perhaps transcending that of the pulpit or the press, has found all too belated recognition in official quarters. Steps should have been taken, years ago, to ensure the influence exerted should be for good, for the elevation, not the debasement, of public taste. Institution of a more direct and rigid censorship at the source of supply now, appears very much like closing the stable door after the horse has been stolen. Much harm has been done already.

Death of Dillinger, who had the unenviable notoriety of being classed as "Public Enemy No. 1," just as he left a Chicago theatre where a "crime" picture had been shown, came as a somewhat hard contemporary upon the feature of the business which has been engaging public attention. There had been a surfeit of "crime" films—pictures which, despite the anodyne of a little sickly sentiment, had tended to metamorphose the "public enemy" into the "public hero," to throw a romantic glamor around the gangster and his "Moll," to sugarcoat the sordid and the subversive. The morbid and degrading curiosity of the mob which battled for sanguinary souvenirs of the dead Dillinger (the blood-stained garments and be-garmented paving stones) can be paralleled by an equally sensational climax in the case of the second. The "sex" series ended in a notorious "morals scandal" trial which occupied the attention of a Hollywood court at the very time peace was ending the hectic career of the gangster.

The "crime" picture had been accompanied by an apparently endless string of "sex" films. It was only right, therefore, and to be expected, that the Dillinger climax be the first should be paralleled by an equally sensational climax in the case of the second. The "sex" series ended in a notorious "morals scandal" trial which occupied the attention of a Hollywood court at the very time peace was ending the hectic career of the gangster.

There is no gainsaying that presentation of crime and sex in the average film has been anything but a healthy influence; nor can it be gainsaid that the sole criterion of motion picture production in the past has been box-office receipts. Such a criterion inevitably led to over-emphasis of sensationalism, the featuring of the thrill; and the anodyne of a little moral sentiment has never been sufficient to neutralize the possible evil effects upon impressionable minds of scenes and sounds of doubtful moral quality.

Action finally has been taken to impose a new and stricter censorship upon the film industry, which proposes to expurgate the more harmful features of Hollywood box-office attractions placed in circulation. The censorship will apply not only to the pictures themselves, but also to the stories procured for film purposes.

Concerning the several story submitted and accepted, there apparently is a reason why they should be trite and commonplace both in theme and presentation. Apparently, there is a premium upon the banal. James H. Gregory, noted playwright and actor, has been giving more rather cynical advice upon "How To Write A Talkie" to readers of the Leeds (Eng.) Mercury. He advises aspiring scenario-writers never to try for style, and never to write like a Galsworthy, a Hardy or a Maupassant; bare bones and nothing more is wanted. He concludes in this vein:

"Never mind the richness of the story—send it off at once before your conscience gets going. And as soon as you've sent it off, start on another—or the same one made slightly different. When your first story comes back from the first film company, send them the second and send the first to another firm. When you have about a dozen stories, keep them circulating. Don't hesitate about sending the same people a story which they have once rejected. They have probably changed their reader in the meantime."

Apparently the motto for those who seek this way to wealth is: "Abandon conscience those who wish success."

Receive Big Salaries

Motion Picture Stars Receive More Pay Than U.S. President

The United States motion picture industry, even while suffering a loss of \$15,000,000 last year, was shown to have given 110 people larger salaries in 1933 than that received by President Roosevelt.

Three others equaled Mr. Roosevelt in the salary he would have received without his government pay—\$75,000.

The peak yearly pay cheque for the industry, \$315,000, was paid to an unnamed actor. The second highest, a salary of \$26,250, went to an "artist" who received \$10,000 a week when he or she was working.

These figures were contained in a report of N.R.A.'s six months' study of the producing, distributing and exhibiting branches of the film industry.

In his youth, George Washington made a trip to Barbados in the West Indies.

Some animals of the same species have more ribs than others.

Looseness Of The Bowels During The Summer Months

It is seldom, during the summer, that most people are not troubled with some form of looseness of the bowels. Generally it develops into diarrhoea, dysentery or Summer Complaint, and has a tendency to weaken the system.

Do not check the discharges too suddenly. Do not experiment with a new and untried remedy, but take Dr. Fowler's Extract of Wild Strawberry, a remedy that has been used by thousands of families during the past years.

Do not accept a substitute. Be sure and get "Dr. Fowler's" when you ask for it.

Put up only by The T. Millers Co., Ltd., Toronto, Ont.

INFORMAL PICTURES OF DUKE AND DUCHESS OF MARLBOROUGH

With the recent passing of the Duke of Marlborough at the age of 62, the Marquis of Blandford (left) becomes the tenth Duke. At the right is the new Duchess of Marlborough, photographed at one of the recent important race meets which she attended with the Duke.

Giant Mersey Tunnel

Huge Engineering Feat Is Formally Opened By The King

The world's longest underwater roadway, the giant new Mersey tunnel, which between Liverpool and Birkenhead, was recently formally opened by the king.

His Majesty pressed a golden switch which rolled back huge green and gold curtains, and formally declared open what has been called the greatest engineering feat of modern times. The tunnel has four lanes for vehicles and broad side-walks for pedestrians.

"Who can reflect without awe on that will and power of man which in our times has created the noble bridges of the Thames, the Forth and the Sydney harbor, and has driven also tunnels such as this in which many streams of wheeled traffic may run in light and safety below the depth and turbulence of tidal waters, bearing the ships of the world."

The tunnel is named the Queensway in honor of the queen.

It was conservatively estimated that more than a million persons would be present.

The tunnel has been under construction for nine years. Outside of the actual boring the chief difficulty encountered was that of ventilation. The total cost is estimated at \$35,000,000. The tunnel contains a three-mile roadway of special cast-iron sections.

Building Activity At Coast

Considerable "Construction Work Going On In British Columbia"

Considerable activity is noted just now in British Columbia construction circles. Road-building, theatre building and home-building are noted in contracts recently signed, while largest of the enterprises is a new hall of the Great Central theatres, Great Central theatre, which is being built at Port Alberni. Cost of the plant is estimated at about \$60,000, and an average of 500 men will be employed.

With the exception of buckwheat, the grains grown in Canada during May, 1934, were lower than in May last year. The amounts in bushels, with the comparative figures for May last year in brackets, were, wheat, 5,258,707 (5,959,063); oats, 578,306 (621,591); corn, 144,344 (194,044); barley, 47,978 (49,211); linseed, 3,808 (2,744); and mixed grain, 729,298 (1,021,874).

HUSBAND: "Those people who are too lazy to climb up here don't know what they're missing!"

Corporal Stalworthy Recommended To Shackleton As Weather Expert

When Edward Shackleton, leader of the Oxford University expedition into the Canadian Arctic this summer, asked the Canadian government for an experienced expert on conditions in the frozen wastes of the far north, Corporal H. Stalworthy of the R.C.M.P., formerly a constable in Alberta and now at Ottawa, was immediately named.

Famed for his exploits in the lonely Ellesmere Island district, Corp. Stalworthy will accompany the expedition to that territory where it is hoped Shackleton will establish the base.

Five years in various parts of the Arctic and his splendid work on the Bache peninsula where, at one time he was marooned for a whole year, have fitted Corp. Stalworthy for this new post he will fill.

Last November, Miss Hilda Allen, daughter of the rector of St. Catherine's church, Edson, married Mr. Stalworthy and will remain in Edson with her husband's parents. The expedition planned the journey into the north from the European side, and it is believed that the boat will make an attempt at reaching the north pole.

Huge Producer Of Gold

Expect Soviet Output Will Be Second Largest In World

Soviet Russia now ranks as the second largest producer of gold in the world as the result of spectacular output gains in the past two years, the most recent estimates, official and otherwise, indicate.

The 4,000,000 fine ounces of gold which the Soviet Union is expected to produce this year would outstrip both Canada and the United States, long rivals for the position of runner-up to South Africa. Russian output in 1933 is officially placed at 2,450,000 fine ounces.

The government, a gain over 1932 of 142 per cent, and more than twice the annual average of Czarist days.

Then American agents in Japan have made the amazing discovery that the Japanese authorities were selling this iron at cost price for manufacturing at home. The secret is out. Tokyo has purchased three-quarters of a million tons of idle shipping abroad for \$5,000,000, but it will not be long before the old ships return to the American market as \$125 bicycles, \$175 automobiles, \$450 radios, etc.—New York Post.

Tree Planting Plan

Shelter Belt 100 Miles Wide From Canada To Texas To Be Planted

The United States Secretary of Agriculture Henry Wallace announced that work would begin immediately on the 100,000 project to plant a forest shelter belt 100 miles wide extending from the Canadian border to Texas.

President Roosevelt in an executive order signed July 11, allocated \$15,000,000 of emergency funds to begin work.

An Appropriate Text

Before beginning his sermon one Sunday evening a certain minister said that he was sorry to have to complain about the congregational efforts, but he felt bound to make a protest and an appeal. "In last Sunday's collection," he said, "there were no fewer than six buttons. I hope such a thing will not occur again."

Thus turning to the Bible, he announced the text: "Tend your hearts and not your garments!"

Soviets Find Salt Mountain

Described as "an immense dome of salt," a Soviet prospectors in South Tadzhikistan, near the Afghan border. It is named Hishva, is 24,000 feet high, and believed to contain about an million tons of pure salt. Mining will be started at once.

Crop Report

Prospects held forth three
weeks ago for a heavy crop of
wheat this season in Alberta
have been reduced as a result of
the hot, dry weather which has
prevailed over the southern
and eastern sections of the
province, unrelieved by rain save
in a few localities. Neverthe-
less, while it is certain that the
total wheat yield will not be
heavy, the conditions over most
of the province are still suffi-
ciently favorable to assure a
fairly substantial total yield of
grain. Summerfallow crops
even in the driest sections are
holding up remarkably well and
will give a fair yield, while
in some southern wheat dis-
tricts and in the northern areas
of the province the prospect
are for very good yields.

Local & General

Miss Phyllis Bastin left Wed-
nesday for a two weeks holiday
to be spent in Calgary.

W. J. Freebourn of Collins,
Montana, is in the district, look-
ing after his crop interests.

Mr. and Mrs. C. Lachin and
Sandy Anderson were week end
visitors at Waterton Lakes.

J. D. Hagerman is driving a
new Ford V.8. purchased from
Macklin's in Calgary.

Jim Murray, repair man for
the Seale Grain Co. is in
charge of the repair work that
is being done at the local
elevator.

Miss Martin of Edmonton has
accepted the position on the
High School staff left vacant by
Miss Clarkson's resignation.

June and John Anderson are
visiting their aunt, Mrs. W.
Benson at Nanton.

Jimmy Brown, who is attend-
ing school in Calgary, is spend-
ing the holidays with his father
J. Brown.

Mr. Fred Sargent arrived at
the home of his parents in De-
Bolt on July 12th, having
covered a distance of 750 miles
in a covered wagon in six weeks
time. He reports an abundance
of rain in that country and
good prospects for crops and
gardens with an abundance of
wild fruit.

The Ice Cream Social held
Tuesday evening under the
auspices of the Ladies Aid was
successful from both a social
and financial standpoint. Ideal
weather and a beautiful setting
aided substantially in making
the evening enjoyable. A large
crowd was in attendance and
the sum of \$10.85 was realized.
